

Johanna Enterprises

Petroleum Products

At Johanna Enterprises, we supply high-performance lubricants and oils engineered for maximum efficiency and long-lasting protection. Petroleum range is formulated to deliver superior engine care, reduced friction, and enhanced operational life across automotive, industrial, and commercial sectors. Every product undergoes stringent quality checks to ensure reliability, consistency, and global-standard performance.

ENGINE OILS (Petrol & Diesel Applications)

B 20W40 / B 20W50 – API CD/SF

Premium-grade petrol and diesel engine oils formulated with advanced detergent additive systems. They offer enhanced wear protection, superior corrosion resistance, and stable viscosity – ideal for long-distance transport vehicles and low-sulphur distillate fuel engines.

- Excellent Total Base Number (TBN) retention
- Ensures clean pistons and extended oil drain intervals
- Optimized for both petrol and diesel engines

MOTORCYCLE OILS (4-Stroke Engine Lubricants)

4T Fully Synthetic 10W50 – JASO MA2

High-performance fully synthetic oil for hyper sport and racing motorcycles. Provides exceptional engine protection, smooth clutch engagement, and superior thermal stability.

- Racing-grade formulation
- Optimum wear and oxidation control
- Suitable for wet multi-disc clutches (JASO MA2 certified)

4T 15W50 – Fully Synthetic (Ester Based)

Advanced ester technology oil offering superior high-temperature oxidation resistance, rust protection, and sludge control.

- Ideal for high-performance motorcycles
- Meets API SN and JASO MA2 standards

AUTOMOTIVE ENGINE OILS

0W40 Fully Synthetic – API SN PLUS

Premium full synthetic oil using PAO base stock, designed for modern high-performance petrol engines.

- Superior wear protection
- Excellent cold-start performance
- Catalytic converter compatible

5W30 – API SN / ACEA A5/B5

Advanced synthetic lubricant offering outstanding detergency, anti-wear, and antioxidant properties.

- Optimized for fuel economy and emission control
- Suitable for vehicles with catalytic converters and DPF systems

C14 Plus 15W40 – Premium Diesel Engine Oil

Formulated for heavy-duty commercial vehicles and construction machinery.

- Excellent soot control and deposit prevention
- Long drain interval and strong oxidation stability
- Corrosion protection for extended engine life

CJ4 15W40 – API CJ-4

Superior lubricant for both diesel and gasoline engines operating under severe conditions.

- Prevents DPF clogging and reduces oxidation
- Outstanding anti-wear and anti-corrosion properties

CH4 15W40 Genset Oil

High-detergency genset lubricant providing extended protection and minimal sludge formation.

- Excellent TBN retention
- Reduces carbon deposits and extends generator life

GEAR & TRANSMISSION OILS

Gear Oil HD GL-5 (SAE 80W90 / 85W140)

Multipurpose EP gear oil designed for manual transmissions, differentials, and heavy gear systems.

- Exceptional load-carrying and anti-rust properties
- Stable viscosity and foam control
- Meets AGMA and API GL-5 specifications

Automatic Transmission Fluid – ATF DX III

Universal ATF suitable for modern automatic transmissions.

- Excellent friction stability and oxidation resistance
- Smooth gear shifts and high-temperature durability
- Compatible with Mercedes, Volvo, MAN, and ZF systems

HYDRAULIC & INDUSTRIAL OILS

Hydraulic Oils – HYD AW Series (32 / 46 / 68 / 100)

High-quality paraffinic base stocks with strong oxidation stability and corrosion protection. Recommended for hydraulic systems, pumps, compressors, and bearings.

- Rapid air release and low foaming
- Meets ISO 11158L-M standard

AW EHVI Super Clean Hydraulic Oil (32 / 46 / 68)

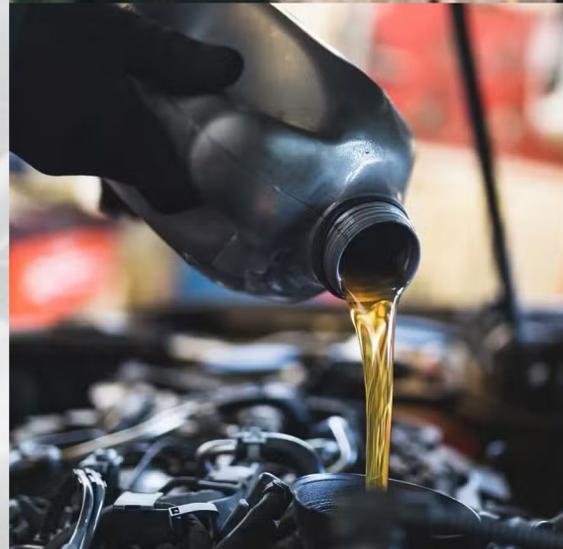

Hydrocracked base stock formulation offering superior thermal stability and anti-wear protection for high-pressure systems.

- Excellent oxidation resistance
- Long service life under heavy load conditions

Gear Industrial Oils – ISO VG 68–460

Extreme-pressure gear oils for industrial machinery and enclosed gearboxes.

- Excellent load resistance and anti-corrosion
- Non-corrosive to steel, bronze, or copper alloys

GREASE RANGE

AP Grease (Lithium-Based)

Multi-purpose lithium grease providing high water resistance, rust protection, and thermal stability. Ideal for automotive and industrial applications.

Chassis Grease (Calcium-Based)

Specially formulated for suspension and steering systems, ensuring metal adhesion and corrosion resistance.

LI-COM Grease (Lithium Complex)

Premium lithium complex grease for high-speed, high-temperature bearings.

- Excellent water washout resistance
- Suitable for centralized lubrication systems

Wheel Bearing Grease (Sodium-Based)

High drop point and structural stability for wheel and axle bearings.

- Reduces wear and extends service intervals

Long Life Grease (Lithium Soap)

Engineered for extreme conditions – high load, high speed, and shock absorption.

- Excellent roll stability and oxidation resistance

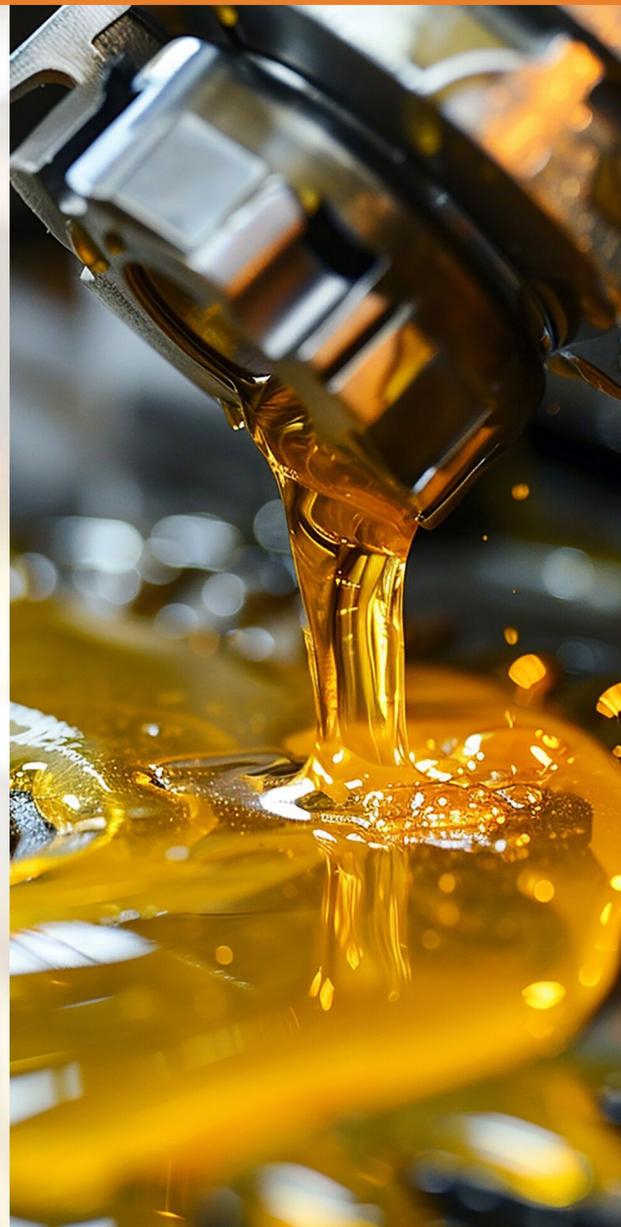

EP Grease (Extreme Pressure)

Lithium-based grease with anti-rust and anti-corrosion properties for industrial and automotive use.

Heavy-Duty Automotive Grease (Fluorescent Green)

High-stability lithium soap grease designed for disc and drum bearing applications.

- Superior protection under heat and water exposure
- NLGI No. 2, Timken OK Load approved
